17:00 Keynote lecture (for PROSCA & BLADDR participants)
17:00 Fabrication, falsehood & plagiarism: the unholy trinity of scientific misbehaviour
Anthony Zenman
17:30 Q&A

17:30 Close PROSCA

17:35 Networking reception for PROSCA & BLADDR participants

Day 1 – Friday 25 October 2019

08:30 Opening exhibition & welcome coffee

09:00 Official opening: the road to Paris
Jacques Irani – Yoann Loriot

09:20 Management of NMIBC in 2019
Chair: Jacques Irani
09:20 New therapies for BCG unresponsive NMIBC: where do we stand?
Ashish Kanitkar
09:40 Case discussion on diagnosis and treatment
Moderator: Jacques Irani
Panel: Kilian M. Gozzi – Ashish Kanitkar – Jerome van Moorsel
10:20 Q&A

10:45 Coffee break & interactive poster viewing

11:15 Pearls and pitfalls in diagnosing and classifying bladder tumours
11:15 Diagnostic imaging for haematuria and bladder cancer: a fresh perspective challenging the status quo
Nigel Cowan
11:35 Pathology and molecular data, where can we meet?
Eva Comprat
11:55 PD-L1 testing: when and how
12:15 Q&A

12:30 Lunch break & Interactive poster viewing

13:25 Welcome afternoon – day 1

13:30 Advanced urothelial cancer
Chair: Andrea Necchi
13:30 New treatment options beyond immunotherapy
(including PD1R and antibody co-therapies)
Yoann Loriot
13:50 A practical guide to biomarkers
Punita Grivas
14:10 Combination or sequencing, ready for primetime?
Ignacio Durán
14:30 Q&A

15:00 Coffee break & Interactive poster viewing

15:30 Quality of care and quality of life as drivers of treatment decisions
Chair: Maria De Santis – Valérie Fonteyne
15:30 SIOG update: treating elderly patients with bladder cancer
Nicolas Motet
15:45 Immunotherapy: the patient’s point of view
TBC
16:00 Panel discussion
Nicolas Motet – TBC
16:15 Q&A

16:30 Debate: the optimal therapy for a patient with high-risk NMIBC: RC vs. intravesical therapy vs. TMT
Moderators: Amrasya Douchetty – Nicolas Motet
16:30 Care based debate with voting rounds
Jacques Irani – Ashish Kanitkar – Anthony Zenman

17:25 Close day 1
## Day 2 – Saturday 26 October 2019

### 08:00
- **Opening exhibition & welcome coffee**

### 08:25
- **Welcome morning – day 2**
  - Anthony Zietman

### 08:30
- **Bladder cancer: practical directions for day-to-day decisions**
  - Chair: Jeroen van Moorselaar – Anthony Zietman
  - 08:30 Surgery-related complications and how to prevent them
    - Kilian M. Gust
  - 08:45 Optimal trimodality treatment: what does it look like?
    - Valérie Fonteyne
  - 09:00 Germline mutations: which patients need genetic testing today?
    - Ignacio Durán
  - 09:15 Q&A

### 09:45
- **Best poster session**
  - Chair: Maria De Santis
  - Up to 3 case reports or clinical data presented by delegates and commented by expert panel: Petros Grivas – Peter Hoskin
  - 09:45 Discussions
  - 09:55 Case 2
  - 10:05 Case 3
  - 10:15 Award ceremony and Q&A

### 10:30
- **Coffee break & interactive poster viewing**

### 11:00
- **Management of UTUC in 2019**
  - Chair: Kilian M. Gust
  - 11:00 Treatment of advanced UTUC
    - Andrea Necchi
  - 11:20 Management of bladder and upper urinary tract urothelial carcinoma with targeted Copy Number Variations Profiling
    - Eva Comperat
  - 11:30 Q&A

### 11:40
- **Management of MIBC**
  - Chair: Ananya Choudhury
  - 11:40 Frozen section during radical cystectomy: is it still relevant?
    - Jacques Irani
  - 11:55 Bladder preservation in MIBC: give me some oxygen
    - Peter Hoskin
  - 12:10 Immunotherapy for MIBC: the future is now (neoadjuvant/adjuvant /maintenance therapy)
    - Maria De Santis
  - 12:25 Case-based discussion
    - Ananya Choudhury
  - 12:45 Q&A

### 13:00
- **Close & farewell BLADDR**
  - Ananya Choudhury – Maria De Santis

### 13:05
- **Lunch (take away box)**
